

The Corona Estate

- A family owned and operated winery in the heart of Valle de Guadalupe, established in 2011, Corona del Valle works with 9 varieties of grapes all of which come from their organically farmed sustainably run vineyards.
- Focus is on monovarietals, with fastidious attention to detail in the vineyards and making very pure honest wines with no corrections.
- The winery is designed with the utmost orientation to sustainability with forward thinking elements such as a rooftop solar array that provides enough energy to run their entire operation, and buried drip irrigation lines to reduce loss from evaporation to almost zero.
